

Draft Email, Facebook Language

Here is language you can edit and then send in an email or post on Facebook to ask people to join your neighborhood as a food donor!

I recently learned about the **Clark Neighbors Food Project**, a grass-roots nonprofit organization whose sole purpose is to make it easy for people to share food with local food pantries in Clark County. www.clarkfoodproject.org

I signed up as a Neighborhood Coordinator to help collect food from my neighborhood, and hope there are others who might like to contribute food through me, or possibly become a Neighborhood Coordinator for your own neighborhood!

The concept is pretty easy. When you agree to be a food donor, you will receive a reusable, washable green grocery bag to fill with nonperishable food over a two-month period. Then the filled bags get collected before the Food Collection Saturday, you get an empty green bag to start filling for the next collection date, and then all the bags are taken to [specific name of pantry]. The next collection day is Saturday, October 10.

Let me know if you'd like more info!
